

ENERGY//MOTION

We are
building
India's first
full-stack
electric
commercial
vehicle
ecosystem

- 1 High performance and reliable electric vehicles
- 2 Swapping & Charging stations in easy reach at an attractive charging cost
- 3 Financing for fleet operators on par with diesel vehicle financing
- 4 Maximum utilization of renewable energy in charging the battery packs

Company Shareholders

EIM is a joint venture between Ravindra Energy Limited , a listed company in the business of renewable energy projects and JM Baxi Group, the 2nd largest company in the ports & logistics sector

**RAVINDRA
ENERGY LIMITED**

- Reliable Green Energy Provider to corporates
- Rural solar projects
- Round the clock renewable energy solutions including solar, wind and BSS (Battery energy storage system)
- Energy Trading – exchange + bilateral contracts
- For more info: <https://www.nseindia.com/get-quotes/equity?symbol=RELTD>

- 108-year-old business conglomerate, in marine services, ports and logistics and technology
- Operates container and multi-cargo terminals, CFS/ICDs, rail logistics and project cargo services
- India's largest and most comprehensive port and inland location network
- For more info: <https://www.jmbaxi.com/>

Journey So Far

EIM

Battery pack
Ownership

Charging/Swapping
Infrastructure

End – to- end supply
of green energy

Key Highlights

UPFRONT CAPITAL REDUCTION

Fleet owners enjoy 40% reduction in capital cost with our **Maitryi** model where EIM charges for battery use and charging services on pay-as-you-go basis

MAXIMUM UPTIME

EIM battery swapping time is under 7 minutes. No more waiting for hours to charge the battery

VERSATILE CHARGING/SWAPPING INFRA

Our stations can charge any brand of commercial vehicle using high-capacity national standard (CCS 2) DC chargers

TRULY GREEN

We maximize the use of renewable energy for charging to enhance Scope 3 emission compliance

Battery Swapping vs. Charging Infrastructure

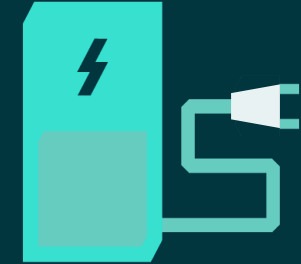

A comparison

A Swapping station ensures increased productivity and cost efficiency

Battery Swapping cum Charging

Charging only

Swapping time < 7 mins

Battery charging time > 60 mins

Simultaneous charging cum swapping of 7 E-trucks per swap station

Single truck per charging gun

Lesser land requirement, on per truck basis

Larger land requirement required for trucks under charging

Uniform Grid load

Grid can be under stress due to fluctuating load

Operational Battery Swapping Facilities

Up to 31-01-2026	Mumbai (NSDT,MICT-1)	Sonipat (DICT)
No of swaps	2209	2364
No of charging sessions (includes gun, delta, MICT 1 etc.)	967	0
Average waiting time (HH:MM:SS)	00:05:10	00:06:00
Total Energy (Million kWh)	0.5	0.4
Total Energy (Million kWh)	0.9	

Actual Deliveries

FIRM SALES

A total of 174 e-tractors have been sold to customers since our commercial launch on 1st August 2025

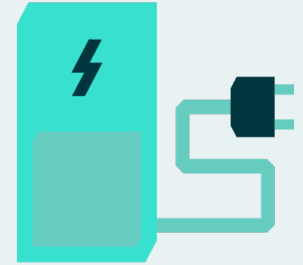

OPERATIONAL

Two 4+1 configuration swapping stations have already been installed and are serving customer e-tractors at NSDT and DICT in Mumbai

UPCOMING

8 swapping stations with a minimum 7+1 configuration are planned to be operational by the end of March 2026

CHARGERS

10 CCS-2 type dual-gun chargers are currently in operation, and each upcoming swap station will include 8 chargers

Strong Support from Government of India

“JNPA, 25th Sept, 2025: Flag-off of fleet of EIM E-tractors and swapping station at India’s largest container port”

Strong Support from Government of India

DICT, 8th Oct, 2025

Inauguration of

India's 1st Public
Battery Swapping Cum Charging Station
for Heavy Commercial E-Vehicles

Chief Guest

Shri Nitin Gadkari

Hon'ble Union Minister of
Road Transport and Highways,
Government of India

Guest of Honour

Shri H. D. Kumaraswamy

Hon'ble Union Minister of
Heavy Industries and Minister of Steel,
Government of India

Date & Time

Wednesday, 8th October 2025 | 12 pm - 1 pm

Place

Delhi International Cargo Terminal (DICT),
Off NH-44, Ganaur, Sonapat,
Haryana

Energy In Motion

pioneers a complete

Electric Commercial Vehicle Eco-system

Zero Carbon Emission; Maximum Competitive Edge

EIM Key Highlights

- UPFRONT CAPITAL REDUCTION**
Fleet Owners enjoy 40% reduction in capital cost with our Maitryi model where EIM charges for battery use and charging services on a pay-as-you-go basis
- MAXIMUM UPTIME**
We offer Battery swapping for EIM-Foton vehicles in under 7 minutes, no more waiting for hours to charge the battery
- VERSATILE CHARGING / SWAPPING INFRASTRUCTURE**
Our stations can charge any brand of commercial vehicle using high capacity national standard (CCS2) DC chargers
- TRULY GREEN**
We maximise the use of renewable energy for charging to enhance Scope 3 emissions compliance
